*It is not the intention of these regulations to require the reconstruction or restoration of individual or original buildings and/or prohibit the removal or demolition of the same. - 1. Whether the building, land, property, site, structure, or object has Pre-historic Significance, Historic Significance, Architectural Significance, Archeological Significance, or Cultural Significance (as all defined by this Article) and the importance of said significance to the community.*

**MPC STAFF COMMENTS: MPC staff finds that demolition of the structure would not cause harm to the historical importance in the vicinity.**

- 2. The current condition of the property.*

**MPC STAFF COMMENTS: MPC staff finds that the property is currently unsafe and uninhabitable.**

- 3. The proposed new use of the property.*

**MPC STAFF COMMENTS: Any new proposed use is unknown at the time of this report; any new construction or structures will require a Certificate of Appropriateness.**

- 4. Whether denial of the proposed demolition would prevent the property owner from earning a reasonable economic return on the property.*

**MPC STAFF COMMENTS: Denial of the proposed demolition would present the Applicant/Owner with extensive costs to repair the building and, left in its' current state, continue to cause hazardous conditions.**
